Re: U.S. Temp Tag

Dear Mr. Soape:

After reviewing your process and finished product of U.S. Temp Tag, we want to commend you on producing a fine product. Not only is your product in compliance with the law, but goes beyond our expectations and requirements in security features.

We appreciate your efforts in creating a legible and legal tag and while this agency may not recommend anyone system over another, we certainly can advise anyone who may inquire that your product does indeed meet all the legal requirements.

Sincerely,

Carol J. Kent
Director of Enforcement
